Annex 4: Empirical Investigation of the Determinants of Court Spending

Cost Driver Model/Preliminary Analysis

Determinants of Total Labor Costs.

Simple OLS regression models were estimated regressing total labor costs in each region for years 2009 through 2014 (deflated to 2015 currency levels) on case load measured as number of cases processed. This model provides a simple assessment of magnitude and provide an average assessment for how court labor costs respond to different types and levels of cases. The dependent variable is total labor costs (LC). This includes spending on wages and salaries. Binary year indicators are also included, with a restriction that the sum of their coefficients equal zero.

Model 1 is formulated as:

$$\begin{aligned}
 \text{Total Labor Expenditures (LC)}_i &= \beta_0 + \beta_1 \text{RESOLVED_CRIMINAL}_i + \beta_2 \text{RESOLVED_CIVIL}_i \\
 &+ \beta_3 \text{RESOLVED_MATERIAL}_i + \beta_4 \text{RESOLVED_ADMIN}_i + \beta_5 \text{YEAR2009}_i \\
 &+ \beta_6 \text{YEAR2010}_i + \beta_7 \text{YEAR2011}_i + \beta_8 \text{YEAR2012}_i + \beta_9 \text{YEAR2013}_i \\
 &+ \beta_{10} \text{YEAR2014}_i + e_i
 \end{aligned}$$

In model 1, coefficient for all resolved case types are significant, except RESOLVED_MATERIAL cases. The coefficient for criminal cases (RESOLVED_CRIMINAL) is the highest among the coefficients for the different case types, implying that criminal cases have the highest labor costs.

Model 1: Determinants of Total Labor Costs		
Dependent Variable: Total Labor (Personal Services) Expenditures (LC)		
Independent Variable	Coefficient	Standard Error
Intercept	746292.1553	33168.52***
RESOLVED_CRIMINAL	1685.925939	280.63***
RESOLVED_ADMIN	1617.314425	144.15***
RESOLVED_CIVIL	263.5562126	34.45***
RESOLVED_MATERIAL	12.57831614	19.43
YEAR2009	-50327.02121	49549.27
YEAR2010	-199579.0096	44588.695***
YEAR2011	-348810.0031	44107.98***
YEAR2012	-306687.2405	44366.43***
YEAR2013	188119.7861	45276.73***
YEAR2014	717283.4882	48815.61***
N	252	
Adj R-Sq	91.9	
P-value: <= .1 '*'; <=.05 '**'; <=.01 '***'.		

With the apparent absence of Misdemeanor (Contraventions) cases, the ability to capture the exact relationships between the caseload data and the total labor costs might be hindered.

More work is being done to see if economies of scale exists for the total cases and the individual case types vis-à-vis total labor costs.

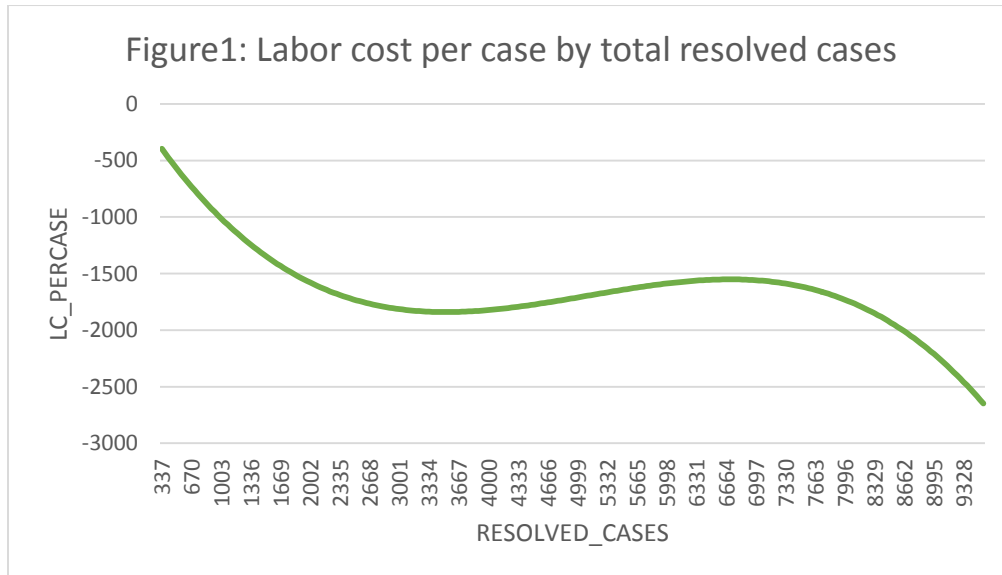

Labor Cost Per Resolved Case.

We ran a simple ordinary least squares regression model using total labor cost per case (LC_PERCASE) as the dependent variable and regressing a set of variables on it. LC_PERCASE is created by dividing total labor cost (LC, see model description above) by total number of resolved cases. Binary year indicators are included, with a restriction that the sum of their coefficients equal zero.

Model 1 is formulated as:

$$\begin{aligned}
 \text{Total Labor Expenditures (LC)}_i &= \beta_0 + \beta_1 \text{RESOLVED CASES}_i + \beta_2 \text{RESOLVED CASES SQUARED}_i \\
 &+ \beta_3 \text{RESOLVED CASES CUBED}_i + \beta_4 \text{YEAR2009}_i + \beta_5 \text{YEAR2010}_i \\
 &+ \beta_6 \text{YEAR2011}_i + \beta_7 \text{YEAR2012}_i + \beta_8 \text{YEAR2013}_i + \beta_9 \text{YEAR2014}_i + e_i
 \end{aligned}$$

In model 2, the coefficients for total resolved cases is significant and negative; that of total resolved cases squared is significant and positive; and that of total resolved cases cubed is significant and negative. This indicates that the scale economy pattern is “S” shaped. The effect of scale is first dampened at mid-levels (RESOLVED_CASES_2) and then accelerates again at higher scale (RESOLVED_CASES_3). The existence of economies of scale can be viewed in figure 1.

Annex 5: Select MOJ Registries

Table 1. Single Register of Proxies

Budget:
In accordance with Contract no. 14/01774/1 of 30.09.2014, the contract amount totals 320,000,00 lei
Project basic objectives:
<p>The direct beneficiaries of the information system provided for proxy management (e-Proxy) include:</p> <ul style="list-style-type: none"> • citizens of the Republic of Moldova; • economic agent in the Republic of Moldova; • Ministry of Justice; • public notaries; <p>The Ministry of Justice will benefit of following definable advantages if the information system e-Proxy is developed and implemented:</p> <ul style="list-style-type: none"> ensuring effective control over access to proxies, including electronic ones (Single Register of Proxies); • increasing the quality of services provided by public notaries; • reducing the time-period for retrieval and accessing the documents/proxies; • recording of the activity and performance of authorized users; • standardization of documents, excluding of redundancy, reducing the complexity of the document processing system (standardization and automation of document generation and archiving process)
Project short description:
The Information System "Single Register of Proxies" is a software solution very similar to the technical solution e-Apostille (representing actually a modification of the e-Apostille system). The system allows for the verification of proxy existence, validity and other issues anywhere and by anyone providing access to the proxy number and security code. The register is accessible at https://testgu.justice.gov.md/User/site/login
Project technical details (functionalities):
The technical solution is developed on the <i>Directum</i> platform (used in e-Apostille, e-Retention, e-Encumbrance, One-Stop-Shop, Register of Pledge).
Contact persons directly involved in project implementation:
Contact person in MOJ: Tihon, Tudor Contact person of the developer Infosafe SRL, Republic of Moldova: Griscan, Dorin, mobile: 079404037.
Participants as pilot stage
Tudor Tihon, Irina Bucsanu, Lidia Nagherneac, Vasile Stahurschi, Andrei Bazaochi, Marina Obada (notary office "Gladis Oleg"), Ana Galaju, Angela Dragomir
Problems identified in the system:
It is necessary to develop the system search engine using a series of criteria
Proposals:
<ol style="list-style-type: none"> 1. Finalize the technical Concept and the Regulation on the operation of the register and to approve the documents mentioned; 2. Launch the Registry; 3. Identify system deficiencies in common with notaries; 4. Develop new functionalities; 5. Budget for the system maintenance and development could be collected from payment of Register operation fee. (According to the annual reports of notaries, in 2015, 357 006 proxies have been issued. By instituting a fee of 5 lei / proxy the Ministry would collect 1.78503 million lei. The fee for MPay transactions is covered by the E-Governance Center. According to the legislation in effect, a 1%-commission is charged per invoice paid, not less than 1 leu and not more than 2.5 lei for cash and internet banking payments. Let assume that this commission is paid by the Ministry of Justice. In this case, the Ministry would collect between 4 and 2.5 lei / proxy, i.e. 892 515 lei to 428 024 lei for 357 006 proxies annually. Given that the commission would amount 1 leu to the fee of 100 lei, the Ministry of Justice may choose to increase the value of the fee applied for Register operation.

Table 2. SIA E-Legislation

Budget:
As in accordance with Contract no. 14/01297/1 of 28.07.2014, the Contract amount totals 2 350 000,00lei
Project basic objectives:
<ul style="list-style-type: none"> • The development and implementation of "e-Legislation" system will allow achieving the following objectives: • To provide accurate analytical and statistical information to the public authorities and institutions of the Republic of Moldova; • To reduce the time-period required for verification and to improve the verification process; • To reduce the time-period associated with notice issuance by field institutions; • To implement an effective mechanism of collaboration between stakeholders.
Project technical details (functionalities):
The technical solution is developed on platform components Java, PHP, MySQL (used also for the State Register of legal acts www.lex.justice.md). The system could be accessed at http://elex.justice.gov.md/
Contact persons directly involved in project implementation:
Contact person at MOJ: Tudor Tihon; Contact person at E-Gov: Iurie Țurcanu. Contact person of the developer NRG Interactiv SRL: Mihai Bulai, mobile 069517232.
Participants at pilot stage:
<p>Ministry of Justice: Tudor Tihon, Irina Bucșanu, Cristina Melnic, Diana Melenciuc Ministry of Finance: Nadejda Balan, Aliona Moisei, Viorica Pricop, Ina Bundiuc, Stela Paduca, Ecaterina Esanu, Irina Babuci, Ana Soltan, Călin Bălan, Ana Prodan, Diana Masco, Irina Cojocar, project manager within MoF: tel 022 262 537 Ministry of Culture: Aliona Strîmbeanu, Orest Dabija, Rita Garconita, Olga Coptu, Andrei Rodideal, project manager within MoC: 022 210 773, mob. 069093786 Ministry of Agriculture and Food Industry: Alexandru Popa, Valeriu Garbuz, Vasillii Dogotari, project manager within MAFI: mobile 068330188 Ministry of Defense: Radu Sereida, Iurie Lisman, Alexandru Buruc, project manager within MoD Ministry of Economy: Cezar Ilias, Ana Ionas, Uliana Stici, Artiom Popov, project manager within MoE, mobile 068234888 Ministry of Environment: Mihail Gonta, Veronica Lopotenco, Victor Găluscă, Ion Mischevca, project manager within MoE: tel 022 204 533 Ministry of Internal Affairs: Uliana Bădărău, Dorina Cozari, Denis Beliman, Victor Morari, project manager within MIA, mobile: 079402666 Ministry of Youth and Sports: Ion Iacub, Marcel Minciună, Vitalie Savciuc, Victoria Butuc, Alexandru Iosipoi, project manager, tel 022 820 850 Ministry of Labor, Social Protection and Family: Djulieta Popescu, Lilia Pascal, Andrei Veverita, project manager within MLSPF, tel 022 269 355</p> <p>The Ministry of Foreign Affairs and European Integration has postponed signing of SIA e-Legislation piloting until a later date The Ministry of Health and Ministry of Education did not provide any response. The Ministry of Information Technology and Communications refused to participate in the pilot stage arguing that in accordance with GD 975 of 2012, all the ministries should use SIGEDIA. The entities responsible for the implementation of SIGEDIA are MITC and SIS. As for now, no institution is using this system. The Ministry of Transports and Road Infrastructure refused to participate in project piloting arguing that they are not forced by law to act so. The Ministry of Regional Development and Construction reportedly declined to participate at project piloting arguing that project implementation should be launched following an administrative act of the Government and not a department act.</p>
Problems identified in the system:
A working meeting has been convened to identify system problems with the participation of all project managers from the ministries participating in the project pilot stage. The meeting agenda included separate discussion on each problem identified. The meeting resulted in the development of the Technical Specifications for the development of new functionalities. The purchase procedures will be launched soon. The estimated amount is

600 thousand lei.
SIA e-Legislation cannot be launched until the draft GD on normative acts is approved. At the moment, the draft is with the State Chancellery. The reorganization of ministries and of the Chancellery is expected first and then the project promotion.
Proposals:
To legalize the system, it is proposed to develop a Concept that would incorporate this system, e-Cabinet and e-Parliament.

Table 3. Register of Enforcement Procedures

Budget:
As in accordance with Contract no. 14/01310/1 of 05.08.2014, the Contract amount totals 381575,20 lei.
Project technical details (functionalities):
The technical solution has been developed on the GreenDocs platform (used also for the Single Register of Economic Agents and Non-Commercial Organizations and e-Probation).
Contact persons directly involved in project implementation:
Contact person at MOJ: Tudor Tihon; Contact person of the developer Greensoft SRL, Romania in the Republic of Moldova: Oxana Oprea, mobile 060102626, 079457197.
Problems identified in the system:
To be launched in the pilot stage, the system needs a number of new functionalities: <ul style="list-style-type: none"> • Implementation of the work-flow principle for all types of files. • Implementation of the timer for all stages and time monitoring. • Implementation of the fee-counter for all stages and calculation of costs of enforcement due. For this purpose, relevant specifications have been concluded for the development of new functionalities and post-implementation maintenance of SIA "Register of execution procedures". The purchase procedure will be launched soon. The projected amount is 1 million lei.
Proposals:
It is proposed as follows: <ol style="list-style-type: none"> 1. Launch the acquisition procedures in order to finalize the system. 2. Launch the project in the pilot stage. 3. Develop the technical documentation. 4. Launch the working stage.

Table 4. E-Register of Retention, Arrest and Detention

Budget:
According to Contract no. 13/00940 of 12.12.2013, the Contract amount is 5 980 00,00 lei
Project basic objectives:
The implementation of this system within the Ministry of Justice will contribute to the creation of the state information resource of law enforcement authorities, and will bring several benefits, including as follows: Benefits to the Ministry of Justice and subordinate structures: <ul style="list-style-type: none"> • ensuring creation of the information resource in the area of recording of detained persons; • ensuring information interaction and collaboration during interstate and international information exchange; • ensuring rapid communication between System participants via secured communication channels; • modernization of law enforcement by transferring administrative processes to the area of advanced technology; this will improve work processes and will reduce operational costs. Benefits for the Government and field ministries: <ul style="list-style-type: none"> • increasing the degree of expediency upon rapid intervention in cases of exceptional circumstances to ensure public protection; • ensuring rapid communication between System participants via secured communication channels; Benefits for Moldovan citizens:

<ul style="list-style-type: none"> public access to statistical information related to e-Detention system.
Project short description:
Participating organizations - MIA, Prosecution, Customs Service, CNA, MJ DIP. The RECRAD concept has been approved by Government Decision no. 25 of 18.01.2008 on approval of the Concept of the automated information system "Register of detained, arrested and sentenced persons". The Government Decision no. 716 of 08.28.2014 approved the Regulation on the Register of detained, arrested and sentenced persons, and designated DIP to further develop the concept.
Project technical details (functionalities):
The technical solution is developed on the <i>Directum</i> platform (used also for e-Apostille, e-Proxy, e-Encumbrance, One-Stop-Shop).
Contact persons directly involved in project implementation:
Contact person at MOJ: Tudor Tihon Contact person of the developer Infosafe SRL in the RM: Dorin Gritcan, mobile 079404037.
Problems identified in the system:
<ul style="list-style-type: none"> The MIA team will further pilot the project and will, in common with the working group, assess the extent to which the system responds to the current needs and will define the system from technological perspective. The system should be integrated with E-Gov platforms (MConnect, MPay, MSign, Mpass). Connection should be ensured with MIA (RICC), Prosecution (InfoPG), Customs, courts (PIGD), DIP (Register of detainees) for purposes of interpellation of information on cases of arrest and detention.
Proposals:
A contract is proposed to be concluded on provision of telephony services, as the retention file is initiated upon phone call.

Table 5. One-Stop-Shop

Budget:
As in accordance with Contract no. 4 of 16.06 2014 of 13.10.2014, the Contract amount totals 525000,00lei
Project basic objectives:
OSS direct beneficiaries include as follows: <ul style="list-style-type: none"> Moldovan citizens; Moldovan economic agents; Ministry of Justice; legal practitioners; The Ministry of Justice will benefit of a number of advantages provided following implementation of this system: <ul style="list-style-type: none"> enhanced effective control over the process of filing, processing and recording of requests for service provision; increased quality of public services; reduced time-period for retrieval and access of documents / proxies; effective recording of the activity and performance of authorized users; standardization of documents, excluding redundancy, reduced complexity of the document processing system (standardization and automation of document generation and archiving processes).
Project short description:
The "one-stop-shop" platform is an information software very similar to the technical solution used for e-Apostille (actually, using the same platform: in the future, the One-Stop-Shop is likely to include all the services developed on the same platform and even other platforms).
Project technical details (functionalities):
The technical solution is developed on the <i>Directum/Synapsis</i> platform (also used for e-Apostille, e-Detention, e-Encumbrance, e-Proxy).
Contact persons directly involved in project implementation:
Contact person at MOJ: Tudor Tihon Contact person of the developer Infosafe SRL in the Republic of Moldova: Dorin Gritcan, mobile 079404037.
Problems identified in the system:

The system has been developed. The team from the Directorate of Non-Commercial Organizations (DON) had to pilot the project and assess the extent to which the system responds to the current needs and to define the system from technological perspective. The pilot stage did not occur. Currently, the maintenance contract has expired.

Table 6. State Register of Normative Acts (Legis)

Budget:
To develop the new web interface, a budget of 2 300 000 lei has been allocated in 2013. A budget of 1 755 000 lei has been allocated in 2014, for the versioning and population of the new interfaces. In 2015, the Ministry of Justice has allocated another 3 975 000 lei. The total budget amounts to 8 030 000 lei.
Project technical details (functionalities):
The technical solution is developed on platform components Apache, PHP, MySQL (used also for e-Legislation). Versioning and population are carried out by the company Proeuroconsult SRL.
Contact persons directly involved in project implementation:
Contact person at MOJ: Tudor Tihon Contact person of the developer NRG Interactiv SRL: Mihai Bulai, mobile 069517232. Contact person of the versioning and population service provider: Vadim Caraus, mobile 069509022
Problems identified in the system:
<p>Since system launching, a series of errors and deficiencies have been traced out and several suggestions have been provided:</p> <ul style="list-style-type: none"> • Creation of a search filter by certain criteria for non-approved Documents: Language: md no. act: 19 date / month / year of adoption: 04.03.2016 date / month / year of publication: 15.03.2016 type of act: law no. MO: 100-105 name of legal document: metrology • Introduction of a search field for the classification Code of the act set based on the GENERAL CLASSIFIER OF THE LEGISLATION: Example: 01.01.01 Upon entering the code to be viewed: code: 01.01.01 subcode: 01.01.01.00 – Republic of Moldova, sovereign and independent state (according to the classifier) Year: 2001 acts referring to this code Ex. 01.01.01.00; (HG 279 of 19.11.2001 approving the Regulation on the way to assess the degree of knowledge of provisions of the Constitution of the Republic of Moldova and the state language) • The documents deleted by the operator from legis.md are stored in the folder of non-approved documents. Yet, it would be appropriate to create a filter i.e. recycle bin, so as after automatic deletion, the acts get into the recycle bin and not in the folder of non-approved documents. • Upon search of an act, the results should be displayed in chronological order: ex. HG158 of 04.07.2008 (if knowing the year of issuance) 2008 ex. HG158 of 04.07.2008 (if not knowing the year of issuance) 2011 2010 2009 2008 • Upon search by only year of issuance: ex.1990 legis.md – 27754 acts

lex.justice.md – 741 acts

Upon search by only year of publication:

ex.1990

legis.md – 27832 acts

lex.justice.md – 741 acts

The functionality of the searching manner should be revised.

Given the fact that the placement of legal acts on the portal legis.md should support compliance with the requirements related to official normative acts by providing an electronic product available on the internet for all interested persons, the employees of the PDAJ Directorate came up with certain suggestions to facilitate the working process:

Objections following accessing the legis.md register:

- The field "Title" should allow for re-editing;
- In the field "Text" a button should be created to allow modifying the space between rows;
- In the field "Text" a button should be created to allow erasing of data;
- If an act is approved, the page is not stable and the previous settings disappear; thus, the user has to search again the page used before;
- A new search engine should be included in the field "nom-approved documents";
- If an act is deleted, the act will not be deleted automatically, and deletion will occur only after a certain time;
- The font title of the act should be Times New Roman, like the text of the act;
- When accessing a document and wishing to access another act, the first act opens first and the second will open on the same page, not as separate link aside;

Proposals, suggestions for improvement and development of the technical and program base of the of the State Register of Legal Acts (legis.md):

- In the field "Title" to insert a button in square 2;
- In the field "Add Document" in the part "entering into force", the create the date of entering into force of the act and not of the Monitor, or to create a new section with the date of the entering into force of the act;
- For example: OMF110 of 28.07.15 enters into force on 01.01.2016. A modification has been made (OMF187 of 04.11.15), which takes effect as of the date of publication on 22.05.2016. Accordingly, a misunderstanding occurs when opening the act amended (2015) the system shows the original act (2016);
- To insert the eraser button, button tab → automatically create paragraph.
- If there are more modifications in the Monitor to the same act, when opening the act, the system should open the act with the last modification and not the first one, i.e. numbering should be reversed (i.e. HG723/2012)
- In the search system, to insert the years in chronological order starting from 1961.

Currently, the register is available only in Romanian. The acquisition procedure should be launched for the versioning and populating of the Registry with the Russian language version (18 thousand acts in 2016 (700 thousand lei) and 50 thousand acts in 2017 (2,100 thousand lei).

Annex 6: Preliminary Cost Estimates - Modernizing Key Justice ICT Systems

Table 1. Cost Estimates for Assessment of ICMS and e-Case

Remuneration Costs						
Position	International (I) / Local (L)	Description	Unit	Unit Cost (USD)	Quantity	Total Cost (USD)
Program Director	I	Contract Liaison & Quality Assurance; 10 percent of effort over 5 weeks	Person days	1,300	3	3,900
ICT Tech Expert: ICMS	I	Full-time on site, 25 days	Person days	1,000	25	25,000
ICT Tech Expert: e-Case	I	Full-time on site, 25 days	Person days	1,000	25	25,000
ICT Tech Expert: DBA	L	Full-time on site, 25 days	Person days	1,000	25	25,000
ICT Tech Expert: Systems	L	Full-time on site, 25 days	Person days	350	25	8,750
Translation Services	L	Full-time on site, 25 days	Person days	50	25	1,250
Project Administration & Support	L	Full-time on site, 25 days	Person days	30	25	750
Total Remuneration					153	89,650
Reimbursable Costs						
Item	Description		Unit	Unit Cost (USD)	Quantity	Total Cost
Air Fares	1 air fare each for 3 int Staff		No of air fares	5,000	3	15,000
Visa Costs	Visa for 3 int staff (as relevant)		No of Visa	150	3	450
Per Diem	For 2 int staff for 35 days, plus Program Director		Calendar days	75	74	5,550
Accommodation	For 2 int staff for 35 days, plus Program Director		Calendar days	100	74	7,400
Office Consumables	Paper, toner cartridges etc.		Calendar months	800	1	800
Transportation	Driver, running & service costs		Calendar months	2,000	1	2,000
Total Reimbursable Cost						31,200
Grant Total of all costs						120,850
Suggested allowance for budget		Review of ICMS (courts) and e-Case (GPO)				130,000

Table 2. Cost Estimates for the Development of an ICT Strategy

Remuneration Costs						
Position	International (I) / Local (L)	Description	Unit	Unit Cost (USD)	Quantity	Total Cost (USD)
Program Director	I	Contract Liaison & Quality Assurance; 10 percent of effort over 6 weeks	Person days	1,300	3	3,900

Visa Costs	Visa for 2 int staff (as relevant)		No of Visa	150	2	300
Per Diem	For 1 int staff for 365 days, plus Program Director		Calendar days	75	400	30,000
Accommodation	For 1 int staff for 365 days, plus Program Director		Calendar days	100	400	40,000
Office Consumables	Paper, toner cartridges etc.		Calendar months	800	12	9,600
Transportation	Driver, running & service costs		Calendar months	2,000	12	24,000
Total Reimbursable Cost						123,900
Grant Total of all costs						793,960
Suggested allowance for budget			Training Center (TA)			800,000

Annex 7: Constructing New Court Facilities – Two Options

	Option I (with demolition)	Option II (without demolition)
	Identification of land to construct new courthouse	
Step 1	a) Identification of an appropriate interim building for the court for a three-year period (contract of bailment)	a) Identification of land to construct new courthouse b) Allocation of land c) Transfer of land (legal act)
	Technical design and documentation	
Step 2	a) Obtaining urban/planning certificate to design new building b) Procurement of services to draft design documentation, estimates and author supervision of construction c) Procurement of works to verify design, construction estimates d) Obtaining construction permit e) Obtaining authorizations/approvals required by law, e.g. geotechnical, technical-residential infrastructure	a) Obtaining urbanistic/planning certificate to design new building b) Procurement of services to draft design documentation, estimates and author supervision of construction c) Procurement of works to verify design, construction estimates d) Obtaining construction permit e) Obtaining authorizations/approvals as required by law, e.g. geotechnical, technical-residential infrastructure
	Demolition of existing building	
Step 3	a) Procurement of services to draft design documentation to demolish existing building b) Obtaining demolition authorization c) Procurement of demolition works d) Demolition of existing building	
	Construction of new building	
Step 4	a) Procurement of construction works b) Procurement of technical supervision services c) Construction of new building d) Drafting acceptance report upon completion of works and drafting report on final commissioning/acceptance of works e) Registration of building at the Territorial Cadaster Authority	a) Procurement of construction works b) Procurement of technical supervision services c) Construction of new building d) Drafting acceptance report upon completion of works and drafting report on final commissioning/acceptance of works e) Registration of building at the Territorial Cadaster Authority
	Provision of furniture and equipment for the new courthouse	
Step 5	a) Procurement of ICT equipment, furniture for courthouses b) Installation of ICT equipment and furniture	a) Procurement of ICT equipment, furniture for courthouses b) Installation of ICT equipment and furniture
	Occupation of new building and handover of old buildings	
Step 6	a) Occupation of newly constructed building b) Drafting documents on handover of buildings under management of courts	a) Occupation of newly constructed building b) Drafting documents on handover of buildings under management of courts

Annex 8: Key Procedures – Permits for Courthouse Design and Construction

Constructing court facilities can be divided into two major steps: design and construction. Linked to these are permit requests, in accordance with regulations and standards, cost implications and investment decisions.

Design

The total average time needed to complete the design process can be estimated at 14 to 20 months and is divided as follows: up to two months for the conceptual design, six to 12 months for technical specifications required to obtain construction permits and detailed designs and drawings needed to undertake physical works.

The MOJ in collaboration with the SCM, Ministry of Finance (MOF) and the Ministry of Rural Development and Construction needs to develop standard requirements for different categories of court buildings. These will need to be based on the Practical Code for Construction of the Municipal Court Buildings, the Guidelines for Design and Construction of Courts as outlined in RM CP C.01.04-2007 (MSP 3.02-101-2001) and European standards.

Average costs are estimated at around 20 USD/m² or up to five per cent of construction costs. This estimate applies to the design of a new building or the rehabilitation of an existing building.

Construction

The total average time needed to construct a new court building of 2,000m² is estimated at up to three years. The time needed to rehabilitate an existing building of 2,000m² may vary largely and efforts will depend largely on the complexity of works needed, the building and its condition. Major renovation works are usually more time consuming as design changes are common given unknown actual conditions requiring a re-visit of design/construction assumptions.

Average costs to construct a new building, add on or extend an existing building are estimated at around 580 USD/m² (519 Euro/m²) in Chisinau and 505 USD/m² (451 Euro/m²) outside the capital city. Preparing land for construction will add around 60 USD/m² (55 Euro/m²) to these costs². While these estimates seem realistic, they need to be reviewed given time lapsed. Also, cost estimates per m² may show significant variations depending on conditions and circumstances of each individual case. Hence, generalizations may need careful handling and further specifications to be reliable.

Technical supervision of construction works is mandatory in Moldova. Supervision costs conducted in the same city are calculated at 1.1 percent of the construction price; for supervision conducted for a site located elsewhere, such costs are calculated at 1.47 percent. Author supervision forms part of the design contract: its average cost is about one-third the cost of technical supervision.

Design and Building Permit Procedure

It takes approximately nine to twelve months to complete the required paperwork to obtain a building permit. The paperwork includes - but is not limited to - conceptual design, draft drawings, final Bills of Quantity (BoQs) and construction permits. The process is outlined in Moldova's legislation - the sequence of steps is summarized below:

² See also Feasibility Study for Court Optimization undertaken by USAID (2015).

Step 1: Ownership documents are finalized and the land is prepared for construction.

Step 2: Conceptual design and relevant BoQ documents are prepared by an authorized architect within 30 to 60 days.

Step 3: Following the completion of the conceptual design, the designing architect submits relevant documents to the local authority for review of compliance with local urban and technical rules such as gross area, height and footprint of a building, basic fire protection measures, basic water, sewage, electric needs. This process takes between 10 to 15 days.

Step 4: This step is dedicated to process various technical documentation for such projects as architectural, structural, mechanical, electrical, and sewage compliance. In parallel with the preparation of those tasks, the designer has to check building requirements and connections with communal utilities companies such as water, sewage, and electric. The collection of permits upon completion of the technical documentation takes between six to 12 months.

Step 5: During or after completion of the design process, a state-licensed specialist of 15 or more years of professional practices checks each item. This specialist is chosen by the beneficiary (client). Once checked and approved the project is ready for submission and request of building permit.

Step 6: After the final expert's conclusion is received, the designer prepares the tender documentation, including drawings, technical specifications and BoQ which serve as the basis to procure a contractor. According to Moldova's State Procurement Law the bidding time is one month following public announcement.

Step 7: Within 15 days after opening the received bids, the State Procurement Agency announces the winning bidder.

Step 8: Following the completion and approval of the technical documentation, collection of all permits and selection of the contractor via public procurement, the beneficiary (client) can apply for a building permit to the construction authorities. According to Law No. 163 from 2010, the building permit shall be issued within 10 days.

Step 9: Upon completion of construction works as informed by the contractor, a commission reviews the status of the building for handover. Here, specialists check if the building is in compliance with all regulations, standards and permits. This auditing exercise takes 20 to 30 days and upon successful completion the final working permit is issued. Moldova's regulatory framework foresees a defect liability period of one year after building handover. Retention amounts to 10 percent of contract value, of which the contractor receives the first half at successful handover, the second half upon the end of the defect liability period.

Annex 9: Summary Information – Courthouses, Staffing, Population Served

Annex 10: Court Optimization Plan

Law No. 76 of April 21, 2016 on the Reorganization of Courts:

- (1) Art. 2 (1) Courts newly created according to Art. 1 para (1) commenced activities on January 1st, 2017.
- (2) The unification of courts offices will be done gradually by December 31, 2027 by creating the conditions for this measure in accordance with the plan approved by Parliament upon the Government's proposal.
- (3) To create conditions necessary to operate from a single site, the newly created courts under Art. 1 para (1) have more offices; the headquarters will be the newly created court according to the law's annex. Each Court's President, Vice President and Head of the Court Secretariat will work from headquarters.
- (4) Each court site, except for headquarters, will be run by a Court Administrator appointed by the Court President.

Situation as of early 2017 and suggestions regarding implementation
