1.BACKGROUND

The Legal Resources Centre from Moldova (LRCM) is a non-profit organization that contributes to strengthening democracy and the rule of law in the Republic of Moldova with emphasis on justice and human rights. Our work includes research and advocacy. We are independent and politically non-affiliated.

This activity will be carried out under the Digital Rights Literacy Program, with the financial support of the International Center for Not-for-Profit Law (ICNL).

2. PURPOSE OF ASSIGNMENT

LRCM seeks to contract a consultant / team of consultants (hereinafter referred to as – *the Consultant*) to **deliver a one-day online training on Digital technologies and policies that impact Civic Space for the LRCM team and partner CSOs**. The training aims to enhance LRCM team's skills and knowledge on digital rights and emerging technologies (Big Data, automation, artificial intelligence (AI) and other associated technologies), that can be used to enable or restrict civil society. The training will also tackle on how various national internet regulations and international digital policy initiatives impact civic space, and how to advocate for digital technology policies and utilize digital tools and practices that expand civic space.

The training with a maximum duration of eight (8) working hours shall be conducted online, preferably in early December 2020. The exact period/date will be set by common agreement between the LRCM team and the selected consultant.

The training shall mainly address the following topics / issues related to digital technologies. The list of topics is illustrative and not exhaustive. **The consultant should suggest additional/other topics considered relevant to the purpose of the training:**

- What is AI and what are other digital technologies / applications that impact Civic Space;
- How can CSOs use technological innovations and AI to advance their work and protect themselves from restrictions?
- How to avoid harmful impact of some AI technologies already in use on the civic space?

- How to promote adequate, meaningful and participatory human rights impact assessments of the AI systems during their entire cycle and implementation?
- How the current international legal framework of fundamental rights and freedoms translates into algorithmic design and is safeguarded in practice?
