43 civil society organizations ask full publication of the KROLL company report on the situation regarding Banca de Economii, Banca Social? ?i Unibank and of the contract signed between the National Bank of Moldova and Kroll and initiation of a criminal investigation in this case.

„We recognize the sensitivity of the banking system to any speculation in relation to its stability, and absence of official information about actions of responsible institutions and the fact that the report of the company that performed audit of doubtful transactions was not published, will further continue discrediting the ability of state institutions to act according to their competence.”, is said in the common declaration.
